

JOEL LEAH JACOB

Kattankulathur, Chennai 603203 | 8891203457 | joelleah230@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Highly motivated and results-oriented Computer Science student specializing in Cyber Security, with a strong foundation in full stack development and secure application design. Proficient in building scalable web applications using React, Node.js, TypeScript, Python, and RESTful APIs, along with implementing security practices such as AES-256 encryption, JWT authentication, and role-based access control. Demonstrated ability to develop end-to-end projects, including real-time systems and security-focused tools, while adhering to OWASP standards and secure SDLC practices. Possesses strong problem-solving and collaboration skills, with a keen interest in developing reliable and secure software solutions. Currently seeking opportunities to apply technical expertise in a dynamic and growth-oriented environment.

SKILLS

Languages: Java, Python, C/C++, SQL

Frameworks & Libraries: React.js, Node.js, Express.js, TypeScript, Bootstrap, Tailwind CSS, Vite, pandas, matplotlib

Tools & Platforms: Git, GitHub, Postman, Vercel, Netlify, VS Code, IntelliJ, Supabase

Databases: MySQL, MongoDB

Auth: Google OAuth

Security: AES-256, SHA-256, JWT, RBAC, OWASP, Network Security, Vulnerability Assessment, Penetration Testing, Data Protection

AI & GenAI: OpenAI (ChatGPT, DALL·E), Prompt Engineering

EXPERIENCE

Web Domain Member – ACM SIGKD Club, SRM

05/2025 – Present

- Contributed to web-related projects and improved web application performance by 20% through code optimization
- Developed 3+ responsive web modules using React, enhancing UI/UX across club platforms

Cybersecurity Intern – Threat Prism (Virtual)

03/2025 – 04/2025

- Completed structured cybersecurity training covering network security, threat modeling, and incident response
- Conducted security audits and developed two projects identifying system vulnerabilities with mitigation strategies

PROJECTS

MultiSteg – Secure Multi-Media Steganography System

[Website](#) | [GitHub](#)

- Built full-stack steganography web app hiding encrypted data in images/videos using AES-256-CBC, zlib compression, and LSB steganography with password-seeded random embedding
- Tech:** Next.js, React, TailwindCSS, Flask, Python, PyCryptodome, hashlib (SHA-256), NumPy, OpenCV, FFmpeg

AcadVault – Secure Academic Records Vault

[Website](#) | [GitHub](#)

- Engineered secure academic records system with RBAC, Row-Level Security, JWT auth, and audit logs — 0 unauthorized access across 100+ records, 100% tamper detection via SHA-256
- Tech:** React, TypeScript, Vite, TailwindCSS, shaden/ui, Supabase (Edge Functions, PostgreSQL, Storage), JWT

WebRTC Multi-Object Detection

[GitHub](#)

- Streamed live phone camera to browser via WebRTC with real-time object detection optimized for low-resource devices using frame downscaling, backpressure, and 10–15 FPS targeting
- Tech:** WebRTC, TensorFlow.js, FastAPI, ONNX Runtime, WebSockets, Docker, Express.js

EDUCATION

B.Tech – Computer Science & Engineering with specialization in Cyber Security

2023-2027

SRM Institute of Science And Technology – Kattankulathur, Tamil Nadu | GPA: 9.65/10

Class XII (CBSE, 2023): Delta English School, UAE – 79.6%

Class X (CBSE, 2021): Delta English School, UAE – 77.2%

CERTIFICATIONS & LANGUAGES

Certifications: [Red Hat Certified System Administrator \(RHCSA\)](#) – Score: 300/300 | [NPTEL – Cryptography \(Elite\)](#)

Languages: English (C2 – Bilingual/Proficient) | Malayalam (C1) | Hindi (C1) | Tamil (C1)
